BISMARCK DOES NOT WANT AN OVATION IN LONDON.

German Residents Insist Upon Doing Something Nice for the Veteran Chancellor-Missing Viscount, for Whom a Title Waits.

LONDON, June 3.-Prince Bismarck is exceedingly annoyed at the manifest determi-nation of the German residents of London to make a demonstration in his honor on the ocof his forthcoming visit to the English espital, and will endeavor to evade a public me at the hands of his countrymen if wible. It is understood that a large sum of money has already been subscribed by prom-ment Germans in London to derray the ex-penses of what they intend shall be a reception belitting the occasion of the visit of the master spirit in the creation of the German Empire, and it will be difficult for the Exlor to escape an ovation at their hands

The missing Viscount Boyle, who is anxiously awaited by his family to assume the title and estate of his father, the late Earl of Shannon, is still successful in concealing his whereabouts, if, indeed, he is alive, and it is now feared that another member of the famnow feared that another member of the lam-lly has followed him into obscurity. At the beginning of the search for Lord Boyle, one of his brothers went to Australia, where it was though the missing heir might be found. on, June 3.—The inquiry by the Board of Trade into the loss of the National Line steamer Erin, which left New York December steamer Erin, which left New York December 28 for London, and which never reached her destination, has just been closed. The Board decides that the Erin was in good condition when she sailed, and that her cargo was properly stowed. It finds, however, that she was somewhat overloaded, but states that the syidence submitted to the Beard was too slight to decide the question of whether such overloading was sufficient to affect the stability of the steamer. The Board is of the opinion that the vessel foundered during the heavy gales which prevailed in January.

Is Bismarck Mischief-Making? York, June 3.-A dispatch from Paris New York, June 3.—A dispatch from Paris to the Herald quotes the Nineteenth Century as saying in its editorial of Sunday: There are proofs that Prince Bismarck is intriguing at the little German courts as well as abroad to raise difficulties of all sorts in the way of the Emperor. There is some talk at Berlin of the removal of several high officials who have been proved to have been in communication with the ex-Chancellor and to be associated with his opposition to imperial decisions.

AN UNUSUAL QUESTION. One of Minister Porter's Attaches Not Received With Acclaim.

New York, June 3 - Just before the Fifth artiflery was detached from the Department of the Atlantic and sent to the Pacific, First Lieutenant Luigi Lomia was detailed as mili-tary attache of the American legation at Rome. Word has been received here that the Italian government will probably not receive him in a diplomatic capacity, holding that he is subject to military service in that country. When Lieutenant Lomia was sent to Italy ten years ago on a similar errand the Italian govvernment refused to recognize him as military attache to the American legation and he was promptly returned and ordered by the War Department to other duty, but when he was recently ordered to the staff of Minister Porter, it was understood that the laws against the right to renounce the liabilities of one born in that country and to become a citizen of another country were so changed that Lieutenant Lomia could be sent there on duty

Lomia was born in Italy, but was a resident of Texas when he was appointed a cadet ident of Texas when he was appointed a cadet at West Point Military Academy on September 1, 1863. He was graduated and was assigned to the Fifth artillery on June 17, 1867, hence it is not a question of citizenship, but whether the Italian government is willing to extend to this officer of the United States Army the privileges extended to all of the officers who may be assigned as military attaches of legations residing near its capital. In the meantime Lieutenant Lomia will remain at Rome until the question is settled.

MARQUIS LOUISA AN ARISTOCRAT IN HIS OWN LAND.

A Slender Young Person Who Is "Guyed" on the Street and Taken For a Laundryman-He Has Some Views.

New York, June 3.-Mr. Loo, a Marquis in his own country, is a slender, aristocratic young Chinaman, who has been a nicturesque figure on the streets of New York and in metropolitan resorts about town for some days. Loo is his first or !amily name, and the Loo family, in its own country, is said to be Marquis Tseng, one of the few Chinese nobles that outrank the Loos. The Marquis Loo, who is one of the most influential members of the Chinese Legation at Washington, has resided, off and on, in the United States for a dozen or more years, but he still wears the Huntingburg and Jasper. AN IDIOT BOY'S DEATH.

HE LEAPS FROM THE FOURTH STORY OF THE POOR FARM.

Receiving Frightful Wounds, Which Result In Death-How Did He Fee cape From His Locked Crib?-The Insane's Danger.

An idiotic boy, nineteen years old, leaped from the fourth story of the County Poor Farm at 1 o'clock this morning. His injuries were dreadful, including compound fractures of both legs, a broken jaw and probably internal wound. Dr. F. A. Morrison, physician of the institution, was notified. This merning he amputated one of the legs, but the patient was doomed and died early this afternoon.

The boy's name is Lute Lefever. He has been at the institution since he was two years old. His parents are reported to be living in this city, but they have not been heard from at the Poor Farm since Mr. Williams became Superintendent, four years are Superintendent, four years ago.

The circumstances of the boy's death are The circumstances of the boy's death are somewhat extraordinary. He was helpless and was kept in the attic or fourth floor where the other incurables are. He had a room to himself, and the Poor Farm authorities say was locked up in a kind of crib every night in which he slept. The window was lowered from the top and fastened at the bottom. He was iastened in the crib as usual last night, and all of the ordinary precautions were taken. The Poor Farm people do not know how he escaped from the crib nor how he opened the window. There was no one in the room with him. Superintendent Williams says he heard the boy strike when he jumped; that he immediately investigated and found the facts as stated. The crib, the door of which had been shut down over Lefever, was open and had apparently been occupied part of the night. Friends of the boy are ordered to report to the Superintendent of the farm.

are ordered to report to the Superintendent of the farm.

The occasion is fitting to once more call attention to the dreadfully dangerous position in which all of the incurably insane in the Marion County Asylum are placed. Whatever may be said of the management of the institution it is probably not the superintendent's fault that the insane's quarters are no better. They are kept in the attic for lack, the Superintendent Tays, of better accommodations. Every one of them would be incinerated in case of fire. Morgan," which was the abbreviation of his name which he himself signed to his pictures.

Mr. Morgan was born in Lambeth, London, England, and his father and mother were both actors. Young Matthew studied scene p 'inting and followed his profession at the Pri...ess Theater. He was also a correspondent for the Illustrated London News, and traveled in Spain, France, Russia and in part of Africa and Asia. He was a linguist of fine attainments, speaking five languages. Mr. Morgan enzaged in several comic newspaper enterprises in London. In 1870 he came to the United States under an engagement with Frank Leelle, and soon became known all over the country as a maker of political caricatures. In 1830 he went to Cincinnati under engagement to the Strobridge Lithographic Company, and was there until 1885. His work in theatrical lithographine did much to raise it to a higher standard. In 1833 he founded in that city the Matt Morgan Art Pottery Company and the Cincinnati Art Students' League. Among his other well known works, which attracted public attention, were "A Diorama of Jerusalem," which was destroyed by fire at Columbus, O.; another "Diorama of Pompeii," nainted about a year ago, and a picture of "Christ Entering Jerusalem," taken from the scene as depicted in "Ben Hur."

At the time of his death Mr. Morgan was engaged in work upon various illustrated periodicals and papers, and was also at work upon scenery and decorations for the new Madison Square Garden.

Lawrencenurg, June 3.—Harry Goodwin and Miss Cora Skinner eloped from this city to New Hizabethtown, O., yesterday, it being a runaway match, and her family gave swift pursuit. 'Squire Sterling was called upon to officiate at the marriage ceremony, but upon examining the license it was found to have been issued by an Indiana clerk. There was nothing left but to make a run for the State

line, a hundred yards away, traversing a plowed corn-field and a ravine covered with bushes and briars en route, to a tree marking its boundary, where the ceremony was performed before the persuers burst upon the scene. The bride was so exhausted by the long run that she could scarcely make the necessary responses, and the fat and plethoric 'squire was also badly winded.

Whether or not a freight bureau shall be established by the Board of Trade was discussed during most of the time of the regular meeting of the Board of Governors last night. Shippers, who are members of the Board of Trade, are advocating the establishment of such a bureau. The design is to employ an experienced resircad man to look after the shipping interests of the members of the bureau, in the way of securing better rates, better is civities, correcting evils and mistakes.

The plan is for the Board to establish the bureau and guarantee \$2,500 per annum for its support-during the first three years. It was finally referred back to the committee, with instructions that a canvass be made to ascertain how much of the expense of the bureau would be detrayed by fees at the beginning.

S.F.Gray general Freight Agent of the Pennsylvania Lines, suggested that the same results could be attained by members of the Board of Trade without the proposed expense, by submitting complaints to the Indianapolis Joint Rate Association. The suggestion did not seem to convince the advocates of the bureau that their position was antenable.

The President of the Board was authorized to appoint a committee of flye to join with the city authorities and the Commercial Club in inviting the Knights of Pythias to hold tein the continued of the continued of the continued of Governors was accepted.

MEETINGS AND ANNOUNCEMENTS

MEETINGS AND ANNOUNCEMENTS The managers of the Indianapolis Orphans' Asylum will hold a reception at the Home next Monday evening, from 4 to 8, June 9.

The Mayflower Y. P. S. C. E. will give an ice cream and strawberry festival this evening at Woodruff Place, on H. G. Caldwell's lawn. Grand Kesper of Records and Seals, were also read.

The order's financial condition is satisfactory. The receipts for the year were \$182,610.65. Much of this money was spent in the relief of the sick and distressed.

The lodge is electing officers this afternoon. One of the most important questions to come up for consideration is the one affecting the elegibility of saloon-keepers to membership. The lodge last year decided that no man engaged in the retail sale of liquor should be admitted, but the Supreme Councillor held that the action was illegal. The Grand Lodge proposes to adhere to its former action.

Clarence Huff, of Greenfield, will give an entertainment at the Seventh Presbyterian Church to-morrow night. Refreshments will follow. The cantata, "David, the Shepherd Boy," will be given in University Chapel, Irvington, Wednesday evening. A late car will return to

County Commissioners and Said A petition for the appointment of Peter J. Stoner, as Constable, of Wayne Township, has been filed. The threatened remonstrances been filed. The threatened remonstrances against the granting of a license to retail liquor at the Denison House and to different saloons will not be filed. Captain Ritter said last evening that many of the signers weakened and withdrew their names. The people of Acton and Castleton, however, will fight the application for a saloon in their midst. The Board will listen to the several ward remonstrators June 11th.

The State Superintendent of Public Instruction has completed the school apportionment for the next school year. Because of reduction of interest on the school fund from 8 per cent. to 6 per cent., the amount of money placed to the credit of each child enumerated is \$1.31, whereas last year it was \$1.35, It is estimated that this decrease in the per capita will shorten the common schools next year about ten days. The total income of the State for school purposes next year will be, from the school tax, \$814,613.01; interest on common school fund \$196,400.82; unclaimed fees, etc., \$19,671.46; total \$1.630.085.29. The Congressional Township fund is in addition to this amount. Of the money \$10,000 will go to the State Normal School, \$1,008.62.37 to the counties and \$10,432.92 will remain in the treasury. nonstrators June 11th, Lumbermen off to the Woods. money \$10,000 will go to the State Normal School, \$1,098,052.37 to the counties and \$10,-432.92 will remain in the treasury.

Of the counties in the State, forty-eight draw from the school revenue more than they pay into it, and forty-two pay in more than they draw out. The method by which all the children of the State are given equal facilities for obtaining an education is here clearly shown. The poorer communities receive help from the more prosperous. Crawford County pays into the fund this year, \$2,586.19 and draws from it \$7,034.70; Harrison County pays in \$3,377.39, and draws out \$10,408.64; Martin pays in \$8,022.09, and receives back \$7,224.65; Orange pays in \$4,993.56 on the ceives \$17,008.60; Clarke pays in \$2,053.30 and receives \$1,202.92; Brown pays in \$2,053.30 and receives \$4,995.63. On the other hand Fayette County pays in \$2,053.93, and draws out only \$4,070.14; Union pays in \$5.407.20, and receives \$16,990.57. For the first time in years, the amount which Marion County pays in will amount to a little more than it receives. Both Vigo and Vanderburg Counties receive more than they give. The New Gas President Arrives. C. F. Dieterich, President of the Indianap-olis Gas Company, accompanied by his wife and son, arrived in the city this morning and and son, arrived in the city this morning and will remain a couple of weeks. He contemplates making a number of improvements in the plant and will extend the service. As to dealis he could not speak until he has made a thorough examination. President Dieterich knows nothing of any desire on the part of members of the gas syndicate to purchase the street car franchise of this city.

Walking to New York.

A little German, covered with the dust of many roads and in some respects, externally, resembling a tramp, is due in this city to-day. He is known as Maurice Scholl, but his real name is Max Schmidt. He is walking from Kansas City to New York on a wager between the New York World and the Kansas City Sun. He is to cover the distance in fifty-two days, and will receive \$500 if he does so. He thinks he can cover the distance in thirty-five days if he has no bad luck. Vanderburg Counties receive and the give.

The enumeration of school children in the State shows a slight decrease from the number reported in 1899. In that year there were 770,578, while this year there are 770,723. Several counties show a falling off, while the counties in the natural gas belt show substantial gains.

WATER CONTRACT EXPIRED. Sixth Anniversary Exercises at Christ

Mains Everywhere-Olsen's Figures The Women's Auxiliary of the Episcopal Diocese of Indiana is celebrating the sixth anniversary of its existence at Christ Church today. The services began at 10:30 o'clock this Councilman Olsen, Chairman of the Water Committee, was asked to-day concerning the contract with the Water Works Company, "The contract expired June 1, but it is for force until a new one is entered lute. I have written to over seventy cities, and I find that we are getting better accommodations at less money than any city in the country. The average price for fire hydrants is \$4, while we pay but \$50. I think our committee will roo commend a renewal of the old contract."

Another Councilman says a representative of the Water Works Company visited him and three other Councilman and he believed visited all the members with the information that the company was now ready to extend its mains in each ward and give all the water needed. "This," says the Councilman "is in my opinion a scheme to get us to vote for the new contract. The first thing we know in will come a report from the Chief Fire Rugineer that he has located a hundred or so fire hydrants at \$50 each. Up to this time we could hardly get the company to do anything. Now it seems anxious to do everything."

Still others interviewed think Mr. Olsen's figures inaccurate. They think fire plug prices will average as little as or less than 500 a plug. day. The services began at 10:30 o'clock this morning with the holy communion. Following this Rev. Dr. Locke, of Grace Church, Chicago, preached a thoughtful sermon on the subject, 'Woman as a Citizen,' Bishop Knickerbacker then made a short address of welcome to the Auxiliary, and said many kindly words of the value of the Auxiliary's assistance to the Church at large. In some of the weaker parishes and missions, the Bishop said, almost the entire burden and responsibility of supporting and carrying on the organizations is also on the women.

In 1886 the amount of the contributions of the Auxiliary in this Diocese in missionary boxes and money was \$4,63.63; in 1887 the amount was \$1,098.70; in 1888, \$1,728.74; th 1888, \$1,376.95. The movement to build a home for orphans and aged women is prospering, the Bishop said. The home will be located at the corner of Central avenue and Seventh street. To the fund for its erection children in the vacus parishes have already contributed \$2,000. A board of trustees will be appointed to take charge of the moneys and building operations. Miss Upfold, Secretary of the Auxiliary, read a voluminous report of the year's work. A new branch was formed during the year at Vincennes. In the matter of contributions Christ Church Auxiliary leads the diocese. Its

The advantages of our broad streets are to be thus thrown away at just this time-the time of permanent improvement-when they ought to be secured. It is a raination of the attraction and comfort which those streets can be made to the city; an extortion from the property holders one dollar out of every three more than they ought to pay; an inrease of expense one-third in cost and onir, and all for what-for not a thing hat we can see except to give contractors that much more paving. It is a hindrance to every good purpose of a street; is not needed for traffic; is a drawback in every way. Why does not the Council

You can set it down as a good indication that the man who is always talking about "inferiority" and finding himself snubbed and scouted, has a sense of his own lack of sufficiency rankling in him. The farmer may be a man of intelligence and probity, but he is not sent to the ture to farm and he has not trated that he is a man of fairs fit for other important places. The quaint love-feast was celebrated recently by the Pennsylvania Dunkards. After the night services of three hour? duration, loaves of bread and tin dishes containing soup made of rice and beef, were placed on the table and all the members partook of the Lord's supper. Every set of four brethren and every set of four sisters are soup out of one dish, two sitting on each side of the narrow table. The saintation of the holy kiss followed the supper, when each imprinted a kiss on the lips of themselves the breaking of unleavened bread, and the drinking of unfermented grape wine were also a part of the services.

DELEGATE KETCHAM "ROASTS" SERVICE PENSIONS CLAIMANTS

In Strong Contrast With the Demands of Tom Bennet, Who Talks For Pensions For All the Enlisted-Resolutions Passed.

W. A. Ketcham, who is one of the delegates from Indiana to the National Encampment of the G. A. R. at Boston, is not in accord with the "Soldiers' Service Pension and Alliance Association," which met here last evening. He said to a News reporter who asked him if he had been invited to make a speech at the meeting:
"Well, hardly. Not that I am unwilling,
but they don't want to hear from men who
believe as I do."

"Why not?" "Because I believe that politicians and ension agents-the latter about the only fellows who are making any money now, have stirred up the soldiers until some men who at the breaking out of the war were patriots, believe that the Government owes them a debt that can only be measured by dollars and cents. This is wrong. Where a soldier has not been wounded, nor has not broken down from disease, the germ of which he contracted in the army, the deb

is beyond measure."
"How about the Morrill bill?" "I am opposed to that bill because it strikes three classes of people and puts them on a footing with another class. These are the three months men. They were originally the strike the st inally patriotic, but at the end of three months the patriotism of many of them and their desire for soldiering oozed out of their fingers. Of course there were some who en listed again, but mighty few of them did. Then the 100-day men who understood when they went in that they were not to be shot as nor shoot any one else. They were simply policemen for the Government. The third class this bill strikes are the fellows who were either drafted in 1864 or 1865 or accepted a large bounty and joined regiments after the war was over. They were and al-ways have been a weight and detri-

ment to the Government. These chaps as I said, are placed on an as I said, are placed on an equal footing with the soldier who enlisted in April 1861, and was mustered out in 1865. The Government has not enough money and couldn't raise enough to induce the soldiers who served in battle to do what they did do, and can not possibly measure by any money standard their services. The did not do it for money and money couldn't hire them to do it again. Let the Govern-ment find the man who is suffering, because he was a soldier, or find the family of the man who gave up his life on the field of battle, and see that they are provided for. "I notice a good many people advise the soldiers to see that no man be elected to Congress unless he pledges himself to com-

ply with their demands. Place that kind of a fellow bearing the same relation to the soldier as the fellow does who has the ear of the working men, and who, when a strike is on or threatened, advises them to destroy the rich man's house, the banks or railroads that the working man may get his rights. I regard such fellows as pestilent demagogues whose absence would be a greater blessing to the soldier and the country than any present that could be be-stowed. I don't look upon the soldiers as looters and mercenaries, but the men who take this position are doing their level best to place the soldier before the American people in that light."

The cannon shots that surprised Indianapolitans last night came from the top of Mozart hall. Bugle blasts also assisted in calling soldiers to the meeting of the Indiana Service Pension Association. Between five and six hundred persons attended. Many of the men brought their wives. W. C. Lamb, President of the Association, presided. A long series of resolutions, applauded at many points, was read by Joseph E. Haskell. They had been prepared by a committee consisting of himself, Colonel Henry Jordan, chairman, D. M. Osburn, David Yates, Beverly W. Sullivan, John Ebner, John F. Shoemaker, David Negley, Wm. E. Shilling, Alonzo D. Harvey, Jacob W. Hollenbeck, Joseph B. Forbes, Abner Newland. Lewis Ruth, Walter P. Wiland. T. J. The cannon shots that surprised Indiansharp, E. H. Pritchard, William Nelson and Samuel Sawyer. There was a resolution for every member of the committee. It was held that the Union soldiers feel badly neid that the Union soldiers feel badly treated by the failure of the Government to deal fairly with them; that no ore should receive soldiers' support for office who is opposed to "our just demands;" that the party in power can not expect to be con-tinued in office unless it makes good the promise of a per diem service pension; that the limitation should be repealed and an ar-reasses bill civilia neurloon from the date of rearage bill giving pensions from the date of application for discharge be framed; that best civil appointments are of soldiers; that the delay of meeting soldiers' claims is weakening the country's safeguards, as young men will distrust the Government when it calls for defenders; that the ignorance of the coming generation as to the causes of the war, etc., is deplorable, and that war history should be taught more effectually; that it is in the interest of all classes that liberal pensions be paid, etc., etc., etc.

etc., etc.

Tom Bennet said he was going to talk plainly. He had been supporting the Republican party ever since 1856, making speeches and voting straight tickets, but unless the Republicans did something for the said to t the soldier he was going to call a halt. The soldiers of every war in the United States had received a service pension except those of the last war. The soldiers of the revolu-tion got a service pension, and a land war-rant, so also the soldiers of 1812 and those rant, so also the soldiers of 1812 and those of the Mexican war, sixty-two years of age, received pensions, which was the same thing as getting service' pensions, for at the time the law was passed all of them were of at least that age. Bennet talked long, and scored the Republican party for neglecting to pass a service pension law, now that they have charge of the two branches of Congress, and President Harrison for not recommending service pensions in his message.

Rev. D. R. Lucas followed General Ben Rev. D. R. Lucas followed General Bennett in a short speech, saying that the men who claim the country has not enough money to pay the soldiers, have not a particle of patriotism. If Congress would not do something soon there would not only be a meeting of 600 in Indianapolis, but one of 10,000 in Indiana, and 500,000 in the United States who will teach the Congressmen what their votes are worth. His remarks were partly drowned in applause, and the resolutions were unanimously passed.

An Important Erent.

H. I. Kimball was formerly the first lieutenant of George M. Pullman in the erection of the city of Pullman, beside the lake. He has ambition and ability to make the new town of Kimball, on the Tennessee River, an industrial development equal to Pullman or any other locality in the world.

No lots have yet been sold. Col. Logan H. Roots, a financier of national reputation, who is president of the Kimball Town Company, was unwilling to make sales of lots until the finances were absolutely assured necessary for the accomplishment of great purposes. But on June 10 and 11 there is to be a preliminary sale of lots for the benefit of those persons who desire to be with this town from its inception. It is the only locality where the Tennessee River touches the Cumberland Mountain coal fields. Iron is but a few miles distant, and limestone beneath the feet, and coal upon the banks of the river.

Chambers on Policies.
United States District Attorney Chambers went to Alton, Ill., yesterday, where he delivered an address before a graduating class at night. He discussed "The Profession of Politics." Mr. Chambere thinks that the word "polities" is wrongly used. He thinks a politican should be a man well versed in the affairs of government, one who knows what is best for the people, and people, and country-and not the trickster who can carry the most votes around in his vest pocket. Mr. Chambers also thinks pol-ities should be made a profession just as the law, medicine, ministry and journalism are. He thinks no man can be a successful poli-tician unless he devotes years to the study of the science of government.

THE MARKET NEWS.

The New York Stock Market. [Special to The Indianapolis News.] New York, June 3, 11 a, m,-The stock market opened this morning with a moderate business and a firm temper, most stocks being from 1/2 to

and a firm temper, most stocks being from ½ to
½ per cent. higher than last evening, but the interest in the market again centered in the
trusts and a few of the feating shares, and feverlanness and rapid and wide fluctuations in these
stocks soon developed & weakness in the general
list. Besides the trusts Richmond & West Point,
Atchieon, Missouri Pacific Louisvine & Kashville, Lasckawanna and St. Phui were especially
active & 11 do look the market was fairly
active and barely steady at about first prices.

Diary of a Householder Who Spent \$40,000 in Twenty-six Years.

What does it cost to bring up a family? A gentieman, whose experience will be recognized as having points in common with other householders, has preserved an account of the expense to which he has been in rearing a family of four children. To-day he entered the following statement in his diary. It might be a valuable statistical fact for the "To-day I close my diary. Twenty-six years

might be a valuable statistical fact for the census-takers.

"To-day I close my diary. Twenty-six years ago I undertook to keep an accurate statement of all my earnings and expenses, so that I might know actually how much it costs to live in the married state. Then all was anticipation. I and my young wife counted our resources and our expectations. I was receiving \$15 a week with a promise of more. I owned a bouse comitortable enough for frugal young people to begin the in. We were spared house rent, therefore, and our expenses have never included this item. Retrospectively, I see that we have brought up four children in comparatively easy circumstances. My health has been good and my earnings have been constantly received. I now receive 30 a week and we still own the homestead without any great additions to its wealth, except in an increased amount of furniture. I have little more money than I had when first married. Perhaps, all told, I have \$3,500 now of assets; then I had perhaps \$2,500. We have never wanted for bread. Sometimes we have felt the need of more money. Three of the children are now making their own way. Next week the fourth graduates at High School, having received the same schooling that the others have had, and will begin to look out for himself.

"I shall not necessarily be at any more expense on account of my children, and this diary properly ends now. Would I be willing to go through the same experience again of rearing a iamily? I asked my companion, who has borne the greater part, this same onestion, and I know she spoke with a heart full of love, but was compelled to say: 'Not for all that money could buy would I go through again what has been necessary to rear our ismily.'

"Expressed in dollars, the totals are these: In twenty-six years we have received from my wayes and incidental moneys that came through my wite and the children \$40,900—or say \$40,000—beside the amount of increase in the permanent assets. Given, a plant of about \$3,600, and two employes, man and wi e, it has taken,

(and all paid—probably the only instance on record); groceries, average per week, first five years, \$7; next three, \$9; remainder of the twenty-six years, \$18 a week. For ten years it has taken on an average one pair of shoes per week for the family, including myself and wife. The most annoying thing I have ever known is the rapidity with which children wear out shoes. Only one thing approaches it—the high price of children's shoes. I never could understand how, with all, the civilization of the age, and the demand for cheaper results, children's shoes have not been reduced in price. The human shoe is a failure. No man not rich can afford to buy shoes for a family, and if I had it to do I would go to Timbuctoo, where neither horses, mules, camels nor men are shod."

THE MAYOR'S YELLOW GAVEL

Assists in Expediting Business in the

Council Last Night-Street Cars. Mavor Sullivan has a new gavel. It was presented to him by Councilman Austin, and the fact that it was vellow caused His Honor's friends some uneasiness lest it should prove to be a "Jonah." But the way he handled it last night gave assurance that there need be no lears on that point. When Messrs. Gasper and Hicklin attempted a little sunfish oratory the veilow gavel stopped them. With assistance from Councilmen, His Honor shut off all

The report of Treasurer Osterman shows \$170,478.86 on hand. City Clerk Swift reported orders drawn on the treasury for May at \$38,626.18. Of this sum the Fire Department got \$9,225.50, streets \$4,500, and public light \$1.288.25. On motion of Mr. Youtz, the street car ordinance was read the second time. street car ordinance was read the second time and re-erred again to the Railroad Commit-tee. Messrs. Hicklin and Olsen, of the Fire and re-erred again to the Raliroad Committee. Mossrs. Hicklin and Olsen, of the Fire Committee, reported in favor of buying 2,000 feet of Baker hose, and Mr. Cooper presented a minority report. The sunfish statesmen were about to break into another political discussion, but the Mayor's yellow gavel and Mr. Pearson's call for the previous question shut them up. The majority report was adopted. On motion of Mr. Hicklin, the sums of \$15 for the services of Dr. Orlopp as veterinary surgeon, and \$20c, paid, by Chief Dougherty for a team of horses, were stricken from the appropriation ordinance. The new building ordinance at Mr. Burns' request was bassed. Mr. Hicklin's ordinance prohibiting the running of bleycles on the sidewalks and parks was referred to the committee on streets and alleys. The Paving Exposition Committee was given permission to use the old Council Chamber in the northeast room of the Court House for their exhibit. An order was made to issue bonds under the Barrett law to Robert Kennington for improvements made on Morlon street. The ordinance to pave Massachusetts avenue from Pennsi vania to the L. E. & T. tracks with asphait was passed. So was the Clifford avenue asphalt improvement ordinance. The width of the latter is forty feet.

ment ordinance. The width of the latter is forty feet.

Some one made a motion to adjourn and Councilman Sweetland's deep bass voice roared out: "Mr. Chairment, this sin't right. I ain't been able to do a thing for my ward since I been in Council. Other fellers go to the Clerk and pick out papers they want passed, and just as soon as I do it, then some one wants to adjourn. "Tain't right and I don't like it a bit. We got lots of work in my ward, an' we ain't goin'to git nuthun done. This looks like darn bug business."

The yellow gavel did its work and Mr. Sweetland took his wrath home with him.

THAT STREET CAR ORDINANCE.

Sim Names a Few Little Things That

Need to be "Fixed." As foreshadowed in yesterday's News the

As foreshadowed in yesterday's News the Street Car Ordinance was again referred to the Railroad Committee. Why it was referred is best explained by Sim Coy. "The five essential points in the ordinance, rapid transit, street improvements, conductors and the financial sections are fixed. They will stand without change. But there are a few other little things that are no particular benefit to the city and are burdensome to the Street Car Company that should be amended."

"For instance?" asked The Nows.

"Well, what's the use of saying what kind of a rail shall be used? Let the ordinance state that it shall be the latest and most improved rail. And then the idea of the company having to run to some Councilman whenever it wants some little thing or other!"

It is the general belief that if there is anything in the ordinance that the Street Car Company wants stricken out, that it would be an excellent idea to keep it in. It's pretty near sure if the section "didn't amount to anything" that the company wouldn't bother about it. There isn't a horse owner in the city who does not feel the need of an improved rail that will not snap off wheels.

Aid siman Reilly is one who believes in making haste slowly. "I'do not see," said the Alderman last night, "why there should be such a rush about passing that ordinance. There is a long time to go in yet, and in and after 1900 the irannishes to the streets of this city may be worth, not a millions, and here we are about to give it away for almost nothing. There is not a man in either Council or Board who would transact business for himself in that way, and why should he do for the oity what he would not do for himself?"

A Coward's Suicide Scare. A young lady on North West street is lying A young lady on North West street is lying very ill from nervous prostration, the result of a foolish young man's attempt to frighten her. This young man boarded at her house and wanted to marry her. Her family, however, objected, and the match was broken off. The tellow wrote a note to the girl, threatening suicide, and going to his room irred a pistol. The mother of the girl rushed into the room and wrested the pistol from him. A blank cartridge only was used, and the fellow was not hurt, but what the result to the girl will be is doubtful.

This is the word sent out by the Burris-Herzsch Co., 40 South Meridian street, the only strictly wholesale stationers in Indianapolis. They have an entirely new line of blank books, stationery, school supplies, and new novelties for the fall trade. Send in your orders and call and see them when in the city. Standard goods, reasonable prices and fair treatment is their motto.

Now is the time to leave your orders for those comfortable skeleton suits made only by Norbert Langraf, merchant tailor, Deni-son-House block. Those who failed to have one made last season should avail themselves of this opportunity to live in comfort for the rest of the summer.
